

**ENVIRONMENTS WHERE
PEOPLE CONNECT**

**We start each
commercial project
with a simple goal - to
create places that bring
out the best in people.**

GHAFARI

WHO WE ARE

Ghafari blends energy, understanding, and experience to create meaningful places where memories are made.

People need places where they can be their very best. Whether making deals, feeding the masses, driving change, or making homes, we all need environments that support our daily lives. This is achieved through highly adaptable and impactful designs that meet the experiential needs of today's users and support future modes of living.

We take the time to understand and apply our clients' visions to shape commercial environments into sensible, impactful, and memorable spaces where staff, end users, and the public at large can be creative, social, and safe.
